Exhibitor:

We are planning a select group of up to ten companies and institutions that will actively help shape the event. The focus is not on a traditional career fair format, but rather on an informative theme day featuring workshops and seminars addressing current issues in the aerospace industry. The goal is to foster a professionally informed exchange with students and graduates, as well as to discuss future developments together. To enrich the program's content, we welcome suitable partners who would like to contribute their expertise.

Marketing activities:

- Wide-ranging communication and marketing at the TU Berlin
- Addressing students via internal student mailings
- Social media campaigns tailored to the target group
- Support from the aforementioned TU Berlin departments via internal promotion campaigns and direct mailings
- Classic marketing through poster campaigns, flyer distribution, promotion stands on the TU Berlin campus
